Road Champs- B-29 Superfortress and Douglas C-47.
All packages are unopened but range from like new to very good in condition.
- 143** Big lot of collectible tin toys made in China. Lot to include :
- Schylling- Zeppelin, Horse Race, two Mechanical Delivery Trucks (Lucky Lindy Cream Soda & Homerun Chewing Gum), Rail Zeppelin and Felix the Cat Speedboat.
- Kovap- Cableway and Autobus.
- Unmarked- two Standard Friction Sedans, two Training Planes (one with no box), Motorcycle with Sidecar, Friction Sedan, Pop-Pop Boat, wind-up Airplane and cars tin toy (no box) and Friction Volkswagen.
- All toys are like new in original boxes and have never been played with but may have been displayed.
- 144** Lot of nine Chinese made tin toys to include:
Unmarked set of 4 miniature biplanes, St. John Shanghai Biplane Fighter, Three Avion friction airplanes, Schylling Explorer wind-up sea plane, Gearbox 1/5000 Sopwith camel, Xonex 1/3 scale Model Spitfire and wind-up Elephant on Trike with ball (no box).
All toys are like new with nice boxes.
- 145** Mint in box paya reproduction 1927 Seaplane. Reissue #2720 of 5000. Includes color catalog of the reproductions offered by paya. Box and paperwork included are mint.
- 146** Super nice plane with a wingspan of 24 1/2 inches and fuselage is 20 1/4 inches long. Great shape with minor scratches from careful play. Graded conservatively C-6.
- 147** Nice old Linemar battery operated American Airlines DC 7 with average play wear including minor dents, paint loss and scratches. Clean battery compartment and no broken propellers but the rear rubber wheels have some dry rot. It has not been tested to see if it will operate. Graded C-5 overall.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 148** Japan tin TWA jet in nice shape with minor scratches and some paint discoloration next to ON/OFF switch. It takes batteries to possibly illuminate lights but it may actually have an electric motor. Also included is a Son Ai Toys F-14A Tomcat tin battery operated jet in excellent condition in a damaged original box.
- 149** Large lot of modern diecast cars and trucks ranging from 1/64 scale up to 1/43. Lot includes:
20 MOC Hot Wheels from late 1990's to early 2000's.
6 MOC modern era Johnny Lightning cars from the early 2000's.
3 MIB Elicor vintage vehicles.
3 MIB Solido vintage vehicles
7 various MOC cars from Matchbox, Racing Champions, Winners Circle, Corgi and Muscle Machines.
Lot also includes 16 loose die cast cars from various modern manufacturers. Most blister cards are warped or creased but a few are nice.
- 150** Lot includes Schylling Tin Speedboat x 3, New York Express, chrome plated Streamliner three-car train, and Aluminum Airship. Also includes Chinese made Duck on Bike, Double Decker Bus, Elephant on Bike, Xonex Spacebus, Tin Climbing Monkey and GORT a tin windup robot toy. All are like new in nice original boxes.
- 151** Lot includes paya Red Racer #2, European Street Trolley Green, Santa Fe Francisco cable Car wind up, Taxi Red Classic 1929, Motorcycle with Side Car, Double Decker General Onmibus and Tin Limousine. Other toys made by other manufacturers include Curtiss Tin Biplane with detached wheels, Dunlop-Cord Motorcycle, Skyexpress tin Rocket, Melbourne City Circle Tram, Champion Midget Racer #5, Champion's Midget Racer #8, friction passenger Plane, Avion Airplane, tin spinning airplanes toy (no box) and Kovap Hawkey 1924 Type C and Hawkey type E Feuerwehr 1924. All toys are in very good to like new condition with nice original boxes. Some were never removed and some have dust from being displayed.
- 152** Reproduction pressed steel Little Jim Playthings airplane. The plane does have some paint issues on the top of the wing and on one wheel. The decals look nice too. The plane is 21 1/2 inches long with a 22 3/4 inch wing span.
- 153** This plane has been repainted and looks really nice with an original propeller but attached with newer hardware. There are a couple small dents in the wing but it displays very nicely and the decals look really nice. The plane is 22 inches long with a 22 1/2 inch wing span.
- 154** Mint in box Japanese Zero fighter by Leadworks, made in Japan. Box is in great shape as well.
- 155** Nine vintage 1:72 scale, made in Italy, Edison Air Line H.F. biplanes in original plastic cases. The lot includes Ansaldo A. 1 "Balilla" 1917, Aviatik D.I "Berg" 1917 (broken wheel), Ansaldo Sopwith "Baby" 1916, two- Hansa Brandenburg D. I 1916, R.A.F. S.E. 5a 1917, Spad S XIII 1917, Maachi Nieuport 11 "Bebe" 1916 and Maachi-castoldi M.C. 1932. All of the planes appear to be in excellent to like new unless otherwise noted.
- 156** Four Enesco Vintage Airlines cast iron replica airplanes in original boxes. Includes two small fighter airplanes, one larger fighter airplane and a sea gull airplane. All are like new in original box.
- 157** All original plane with some scratches and paint loss as seen in the pictures. The rear wheel is missing as well as the mechanism in the cockpit to turn the propeller. The decals are all original and one side has a wavy decal as seen in pictures. 21 1/2" long x 22 1/2" wing span.
- 158** All original with no missing parts unless you are considering the light bulbs on the front of the wings. This one was set up with lights and an open battery compartment. There are signs of play wear with scratches and missing paint along with very minor surface rust but appears to retain all of the decals. 21 1/2" long with 21 1/2" wing span.
- 159** All original with scratches, paint wear and minor surface rust as seen. Most of the decals are flaking but the two on the tail are very nice. The spring is missing that turns the propeller but otherwise complete. 24 1/2" long x 23 3/4" wing span.
- 160** Tin lithographed clockwork airplane marked Made in Germany, unknown manufacturer. Plane has a removable wing and is equipped with battery operated lights (not sure where the battery goes). The clockwork mechanism is damaged and does not work. The lithographs are slightly faded but still a very nice airplane. 15 1/2" long x 16 1/4" wing span.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 161** Tin lithographed with minor scratches and blemishes but no missing parts. One of the drive springs for a propeller is broken but the other three work nicely. 14 1/2" long x 19 1/4" wing span.
- 162** Tin lithographed with minor scratches and blemishes. The front and rear wheels and mounts are missing and the friction mechanisms don't work very well or will need some maintenance before they do. 14 1/2" long x 19 1/4" wing span.
- 163** Tin clockwork airplane missing propeller with broken mechanism. The stamped paint over what seems to be a galvanized finished looks nice but there is surface rust on top and underneath but all original. The plane measures 12 3/4" long with a 13" wing span.
- 164** All three planes are complete but the wheels have issues on the two larger planes with dry rot and small chunks missing from the center so that the wheels do not stand vertical. All three have play wear including missing paint, small scratches and minor surface rust. large planes are 9 3/4" long with a 12 3/4" wing span. Smaller plane is 7" long with a 9 1/2" wing span.
- 165** Both airplanes exhibit play wear and paint loss as well as surface rust. Both are complete with all propellers and wooden wheels. 9" long with a 13" wing span.
- 166** Both planes are complete but the small red plane has been repainted. The larger plane has some paint wear but no rust and is very clean. Small plane is 6" long with an 8 1/2" wing span, larger plane is 7 3/4" long with a 10 3/8" wing span.
- 167** Lot of two pressed steel and one tin toy airplane. The large plane is faintly marked "The Airliner" on both sides of the fuselage. It appears to be complete with original paint and had surface rust buffed off of the belly. The other two are missing parts and paint but may have parts that could be used. The large plane is 10 1/4" long with a 14 1/2" wing span.
- 168** Marx Strato Airlines Stratoliner with nice lithographs with very minor play wear or litho loss. Both friction propellers work perfectly. The plane is 13 1/2" long with an 18 1/4" wing span.
- 169** Early version of a popular Marx toy. Unfortunately, there is a small area of repainting on the left side directly on the number 47. It appears that about half of the 7 and part of the 4 were repainted. it was done nicely but is obvious to the discerning eye. there are small scratches and paint wear with a few small spots of surface rust. Clockwork works properly but isn't very strong.
- 170** Repainted but original parts although red cockpit is very likely a modern add-on. Missing the wire spring that turns the propeller. There are a few minor dents but really nice otherwise. Plane is 23 3/4" long with a 26 1/2" wing span.
- 171** Plane is all original but missing wiring to the battery operated lights on the wings. Considerable fading to paint on wings and heavy scratches as seen with mainly intact decals. There are a few small dents but overall very structurally sound. Plane measures 21 1/4" long with a 21 1/2" wing span.
- 172** Brass Tag Toys of Huntsville, AL with serial number 0112 underneath. Toy is basically mint and unplayed with but was displayed and will need some cleaning but no wear otherwise. Plane is 24" long with a 22 1/2" wing span.
- 173** Nice all original tin wind-up with fantastic lithographed wing and pilot. Minor play wear, a few scratches and a couple minor bent edges but overall a really nice old toy. Plane is 8" long with a 6 7/8" wing span.
- 174** Plane is all original and appears to be complete. Lots of paint wear with minor surface rust but lithographed tail section is nice. Plane is 19" long with an 18" wing span.
- 175** Plane has many scratches and paint loss but is free of dents and has no missing parts. Plane is 12 1/4" long with an 18" wing span.
- 176** Nice all original airplane with some scratches and paint loss as seen. Missing whatever drive band was used to turn the three propellers. There is considerable surface rust on the tail but still readable. Plane is 17 1/2" long with a 21 3/4" wing span.
- 177** Ertl plane is mint in box, never removed. Hubley planes are from three different eras. Newest plane was likely repainted and is the exact same mold design as the Ertl plane. The next older one is missing the canopy with a lot of paint wear.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 178** Fantastically restored with no missing parts. Bright, shiny and beautiful!
- 179** Missing original hardware that attached the wing to the body but they are wired together. There is average paint wear and scratches from play as seen. Decals are mostly there but one side has quite a bit scratched off. Plane is 22" long with a 27 3/4" wing span.
- 180** Super nice plane with very little play wear at all and only a tiny bit of paint loss. Both decals are perfect, it just has some dust on it and it's ready to display. The props may have a small bend in the blades but this looks really nice overall, complete with wooden wheels. Plane is 19 1/4" long with a 26 3/4" wing span.
- 181** Plane has many scratches and considerable paint loss from wing and appears to be missing most of the mechanical propeller related components. It appears to be all original but may have some replacement nuts and bolts. The decals on the main wing are almost gone but the rest of the decals are nice with minor to moderate wear. The plane is 21 1/2" long with a 22 1/2" wing span.
- 182** All original plane with some paint loss and scratches as seen but fairly nice overall. The drive band is missing but everything else is present. The decals are all there with minor to moderate wear on each one. The plane is 24" long with a 22 1/2" wing span.
- 183** Clean airplane with some scratches from play wear but really nice overall with all original parts and beautiful decals that have some wear but not much. Drive band is missing but all other parts are accounted for. The plane is 22" long with a 22 3/4" wing span.
- 184** This airplane is missing the entire propeller assembly but seems to have all other parts besides a drive band and a nut/bolt for the wing. There is moderate surface wear and some pitting as well as a few areas of old touchup paint. The decals are generally complete with some fading and cracking apparent. Plane is 20 3/4" long with a 22 1/2" wing span.
- 185** Nice vintage tin airplane with some scratches, paint loss and minor surface rust. Parts are all original except for missing drive band and likely a couple nuts and bolts. The plane is 22 3/4" long with a 19 1/2" wing span.
- 186** All original airplane with missing mechanical parts as well as a bolt/nut pair for the wing. Missing paint from play wear as seen and decals are all present but all have moderate wear as well. Plane is 22" long with a 22 3/4" wing span.
- 187** Airplane is all original with only a missing drive band. Moderate to heavy paint loss from fuselage as well as flaking and surface rust on the propellers. Decals are all present but with moderate wear on all of them. Very heavy toy. Plane is 24" long with a 26 1/2" wing span.
- 188** Unknown manufacture made of heavy gauge pressed tin, not steel. It is sturdy but nowhere close to the Steelcraft items. Airplane is all original but missing drive band. There are scratches as seen as well as small dings and dents but a nice looking piece overall. Plane is 21" long with a 22" wing span.
- 189** Nice looking airplane with almost all original parts with the exception of the drive band, upper drive band rubber parts and the decals. Nice looking paint with some scratches and flakes but it was repainted at some point along the line. The wing appears to be all original paint but with new decals. The wheels were repainted at some time as well. Plane is 22" long with a 22 1/2" wing span.
- 190** Original airplane with replacement drive band, upper rubber parts for drive and possibly the propeller. The paint looks nice but there are a couple small scratches and a chip. Decals are in great shape. Plane is 22" long with a 22 3/4" wing span.
- 191** Presumably a reproduction but no markings or indication thereof. The paint is all new with a sticker on each side but nice decals on the tail. The body is free of dents and the chrome propeller is like new. The nut is missing from the front to hold the propeller on and the wheels are split and just held in place by the "fenders". Plane is devoid of any type of drive mechanism or rubber. Plane is 21" long with a 21" wing span.
- 192** Vintage airplane kit with missing paint from rubbing and handling but a nice looking plane with all vintage parts. Plane is 11" long with a 14 1/4" wing span.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 193** Nice built up vintage set that appears to be complete but could be missing a nut and bolt. Minimal paint wear. Plane is 8 1/2" long with an 11 1/2" wing span.
- 194** Fantastic condition with minor scratches from light play wear and all original parts with a working propeller mechanism. Plane is 9 1/2" long with a 12 3/4" wing span.
- 195** Unknown manufacturer on the plane. Both have play wear but display well. The small plane is a heavy gauge pressed steel and is 7" long with a 10" wing span. The larger plane has a friction motor that is not working and is a lighter gauge pressed steel. It is all original but may be missing a pilot. The larger plane is 13 1/4" long with a 13" wing span.
- 196** Two HTC tin fiction airplanes in nice shape and one KA tin friction airplane. All three are made in Japan and in very nice shape with great lithographs.
- 197** Plane has a few small scratches and a couple larger rubs on one wing but displays nicely. The windup does work to some extent but not properly.
- 198** Small gee Bee airplane with Pegasus on both sides nice lithos but large scratch on the back of the wing next to the cockpit. marked E T Co. underneath. The other plane looks very old and is missing several parts. Both are wind-up but neither plane works.
- 199** F 80 is made by Cragstan and in great shape with a perfectly functional friction mechanism and very little wear. Hurricane A-25 is made by Usagiya and has little wear at all and a nicely functioning mechanism. Larger plane is 7" long with a 7 1/4" wing span.
- 200** Very nice plane with a few small rubs and scratches but really nice litho. Clockwork does not work but appears that it should be an easy fix. Very clean plane. 6 3/4" long with an 8" wing span.
- 201** Fantastic condition with no play wear and a nice original box with some surface creases.
- 202** Fantastic Rocket Shooting Fighter with very minor play wear and a few small rubs. Friction mechanism works nicely and toy displays very nicely.
- 203** Very nice shape with minor play wear and rubs and a small paint touch up on belly but the nose is missing. The clear red cover to the "spark chamber" has a small crack. Friction mechanism works perfectly but needs a new flint to create sparking action. Jet measures 18" long with a 10 1/2" wing span.
- 204** Lot includes Technofix GE 270 futuristic plane with a broken and missing propeller blade but very nice otherwise with a broken mechanism, Marx SV-3 jet with little play wear and a perfectly operable mechanism and two Made in Japan Navy VF-24 delta wing jets in very nice shape, both work but do not roll very far.
- 205** Plane is in great shape with minor play wear and no missing parts except for the key. Operability is unknown but it would cause the plane to roll forward and all four propellers to turn. Unknown manufacturer. Plane is 8" long with a 10" wing span.
- 206** Lot includes six small tin friction jet airplanes made in Japan. Largest plane is 7 3/4" long and the shortest is 3 1/4" long. Nice condition overall and all of the work to some degree.
- 207** Five pieces including two helicopters have friction mechanisms of which four work, one is locked up. The last one is simply a tin lithographed airplane only marked Over Seas Air Line with N-105 on one wing. All have minor play wear and display very nicely. They longest plane is 4" long with a 5 1/4" wing span.
- 208** Nice pressed steel airplane with nice looking decals all around. Aluminum cylinders are reproduction and do not screw in, one is loose. Plane is 6 3/4" long with a 10" wing span.
- 209** Hangar has a few issues including many scratches and paint loss as well as front decal being nearly gone. The doors do not stay shut due to missing parts and the catapult springs appear to be replacements but it works with what is here. The moncoupe is missing one decal entirely and the others have moderate to major wear. the cylinders are copper in color and likely reproduction. Hangar measures 12 x 8 6 inches and the plane is 6 3/4" long with a 10" wing span.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 210** Airplane appears to be an original although the body is free of any damage or dents and the hardware holding to wing on consists of allen head screws. The engine "cylinders are dented and bent a little but that appears to be recent damage. Unsure of originality of parts, must inspect.
- 211** Airplane appears to be an old repainted original with some unoriginal parts. Propeller and propeller shaft are not original and the tires, although dry rotted and cracking, may not be original. they are marked "Dunlop Trials Universal". There are a few tiny dents and some pitting in the fuselage that gives indications of originality. There is an eye bolt attached to the top for purposes of hanging from a ceiling. Plane is 23" long with a 26 1/2" wing span.
- 212** Fantastic near mint toy with minor wear from handling. Box bottom is creased a bit but the box top is still nice with great graphics.
- 213** Lot includes Western Germany tin lithographed airplanes spinning around a globe . Toy is in nice shape with some litho rubs and measures 13 1/2" from outside wing tip to tip. Also includes Chein pontoon wind up plane in nice shape but wind-up mechanism does not work.
- 214** Group of four Hubley and Arcade cast iron airplanes including Air Ford, United Boeing, Lindy and an unmarked plane with 9 197 on the underside of the body section just adjacent to where the wing rests. It looks like a spitfire to me but that is probably too modern a plane for this to be copying. All four have paint loss as seen. The unmarked plane and the Boeing have nice white rubber tires.
- 215** Group of seven small Tootsietoy, Erie, Barclay / Manoil toy airplanes. US Army Boeing red Erie has two broken and missing prop blades from same prop, everything else has little to moderate paint wear but no broken or damages planes. The red w/ silver wings is made of pressed steel and diecast while the plain white plane is made of thin gauge pressed steel. Planes range from 2 1/2" to 4" long.
- 216** Five nice looking airplanes including one Hubley USN 3-B-4 with retractable landing gear, two Tootsietoy TWA NC101Y liners and two Tootsietoy EAL NC 1011 passenger craft. The small white wheels on the two smallest planes are very rough and worn. All of the propellers on every plane are complete with no damage.
- 217** Group includes a nice Tootsietoy Airport Hangar with nice lithographs and some small scratches and minor paint wear as well as some minor creasing here and there. The planes include a nice F-86 Sabre, decent F40 Sky Ray, paint worn U.S. Navy #713 and a nice pontoon seaplane. There are no broken, damaged or missing parts from any plane.
- 218** Both planes are in fantastic original condition with very minor paint wear from handling, never played with. The planes are 4" long with 4 1/2" wing span and 3" long with 2 7/8" wing span.
- 219** Nice shape with very minor paint loss and some old tape residue on the top. Cloth belt is stained on one side but when rotated, the opposite side is in nice shape. All original paint and decals, very nice.
- 220** Incredible new old stock toy in original box with inspection slip. Toy is bright and shiny with fantastic paint and no play wear at all. There are two small box rubs on the top of the toy. The box has some shelf wear but is in fantastic condition otherwise.
- 221** Gorgeous pair of implements with no play wear and no paint loss, stunning condition.
- 222** Stunning new old stock example in a beautiful box that has a turned up edge on one end flap and a small puncture on one side.
- 223** Toy has signs of play wear with paint loss and some minor surface rust but perfect decals and good rubber on the tires and belt.
- 224** Stunning new old stock example with no play wear. This version has long yellow decals along the side with John Deere in green. There are two tiny paint rubs, one on each rear wheel but otherwise perfect. The box is sunken in on the top from years of just sitting. There is a puncture in the top of the box as well as several creases here and there but no missing or torn end flaps on a very solid box.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 225** Very nice example with some paint loss around the trailer hitch area as well as a miniscule scratch on the hood. There is still some green original paint dried to the front wheels. Both decals are beautiful as seen in the pictures. The box is missing two flaps from one end and the third is detached. There are creases, punctures and edge fraying on the original box that is still pretty solid.
- 226** Nice all original wagon with some minor paint loss but does not appear to have ever been played with. Box is slightly sunken in on top and there are a few small creases on the sides and bottom but very solid otherwise with no missing flaps.
- 227** Very nice crawler with minimal paint wear here and there and nice original tracks that are dusty but pliable. The box is slightly sunken in on top from years of sitting and "Drilled for Blade" is written on one side and there are three punctures in the bottom but there are no missing flaps and the box is very solid with great color.
- 228** Fantastic spreader with two minor factory paint flaws, one on one side and one on the front but virtually new and never played with otherwise. Box has some shelf wear and a small corner tear on one long side but is still solid with great graphics.
- 229** Lot includes undetermined era Model D heavy die cast tractor with a lot of missing paint and a missing steering wheel, 1970's 4 bottom plow and drag disc both played with but in nice shape and a Slik hay sickle mower.
- 230** Set of eight tractors all mint and never played with in very nice individual boxes. The set box has some water stains on the bottom and top as seen. The set includes 1892 Froelich, 1914 Waterloo Boy, 1923 JD Model D, 1939 JD Model A, 1952 JD Model 60, 1958 JD 730 Row Crop, 1960 JD 4010 Row Crop and 1972 JD Sound Idea Tractors.
- 231** Tractor is mint in a nice box that has a tear on one end flap but nice overall.
- 232** Includes 1/16 Case #1 Steam Engine FF-0208 mint in box and Minneapolis Moline 1/16 and 1/64 FF-0209 Tractor set mint in box. Both have dust from storage but have never been removed.
- 233** No box but in like new condition with no wear at all, displayed only.
- 234** Tractor appears to be complete but the wheels are loose on the rims and have glue residue on all of them. The steel plow must be exceedingly rare and is in great shape with "Dearborn Equipment" decals on both sides. One of the fenders is also very loose but unbroken and all of the other small parts are here and in great shape. The linkage that holds the plow on has partially fallen off as well but overall a really hard to find toy in any condition. Toy is dusty but should clean up with diligent effort.
- 235** Group of mostly modern Ertl and Matchbox die cast toy tractors and implements in played with condition, some even have dirt on their wheels.
- 236** Nice lot of older cars and two car haulers. Several cars are repainted and a few have replacement tires but overall a really nice lot of vintage cars.
- 237** Four Tootsie toy and four Manoil die cast vehicles in nice shape. The Tootsie toy vehicles appear to be all original but two of the four Manoil cars appear to have been repainted.
- 238** Five large and five medium sized Tootsie toy cars and trucks as well as 18 smaller Tootsie toy and Midget toy die cast cars and trucks. Condition ranges from nice to rough with the majority being somewhere in between.
- 239** Twenty seven total separate pieces in this lot including a car carrier with two automobiles and several other various vehicles. Some are nice and others are missing a lot of paint and one appears to have been repainted or restored. None of them have any broken or missing pieces.
- 240** Ten total cast iron toys of which three are at least repainted and possibly reproduction. The other seven are in nice shape with much or most of their original paint.
- 241** Group of six nice vehicles, all original with nice paint and white rubber tires. They are all approximately 3 7/8" long and are made of three separate cast iron pieces as well as the axles and tires.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 242** Group of two boxed Schuco Micro Racers and one loose one as well as a schuco Piccolo Mercedes 1936 replica and a Dinky Toys Maserati. All are in nice shape and three of the four wind ups work. One racer has minor paint wear while the rest of the items are in very nice shape with minimal to no wear or use.
- 243** Lot includes 7 hot wheels (4 redlines), 8 Tomica, 1 Aurora, 1 Matchbox, 1 AFX Slot Car and 10 other unmarked vehicles ranging from fantastic to rough condition with the majority being nicer than worse.
- 244** Small version pressed steel sedan with airflow trailer. Nice original paint but reproduction white rubber tires. Overall 11" in length.
- 245** Nice old toy with what appears to be all original paint and parts. 7 1/2" long and 5 1/2" tall.
- 246** Nice old toy with all original parts and paint including a partial decal on the drivers side door. There is some paint wear as seen but overall a great display piece.
- 247** This car appears to be all original but has a missing crank to the clockwork mechanism, smashed flat hood ornament and two missing wheel hubs. One of the headlights is broken but the bulb should be replaceable. The tires are in decent shape and three of the four clearly read Kingsbury Toys Keene, N.H. U.S.A.
- 248** Very nice looking toy with what appears to be a repainted body, interior and frame but the parts all appear to be all original and the tires are original with cracking but they are still solid and complete with nice looking hubs. The wind-up mechanism does not work at all, there is no pressure when turned so there is likely a broken spring inside.
- 249** Car is in nice shape but the frame or chassis has been repainted and the tires are all replacements. There appears to be a missing license plate on the back and there is one on the front that likely does not belong there (which can be removed with ease). The windup mechanism does work but will not propel the car. The rumble seat is slightly pushed in but should pop up with the right help.
- 250** Vintage car in nice shape but missing both figures as well as the wind up key. Car has all original trim and nice paint with some small scratches from play wear.
- 251** The car and trailer are in great condition structurally but have paint wear and scratches as seen in the pictures. All six wheels are replacements, four on the car and two on the trailer.
- 252** Nice looking truck with all original parts and paint and a spring loaded dump bed that works great. Two of the tires have flat spots on them and the rims are all wood.
- 253** All three vehicles are all original but have paint loss from play as seen in the pictures. The ambulance is missing the decals from both sides. The delivery trucks have plastic wheels and the ambulance has wooden wheels. The delivery trucks are 10 5/8" long and the ambulance is 11 1/4" long.
- 254** Truck / ambulance is all original with paint wear and scratches but has legible "Medical Corps" on both sides. Rear door opens and closes and the wheels are made of wood. Measures 12 1/4" long.
- 255** Very nice condition with all original parts, paint and decals. There are some light paint rubs and very small scratches but overall a very nice display piece. The toy is 11 1/4" long.
- 256** The car and trailer are both in great shape with all original parts and paint. there is some paint wear as expected but the set retains over 95% of the original paint. The wheels are made of wood and the set is really clean but does have some minor surface rust underneath the trailer.
- 257** All three vehicles appear to be all original with minor paint wear and nice looking white rubber tires that do exhibit some wear and age cracking / deterioration. The two trucks are right around 7" long and the car is 6" long.
- 258** This car has been repainted and has replacement rubber tires but looks really nice. The wiring is all gone as well as whatever battery compartment used to be there. The car is 9 1/4" long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 259** Group includes four various vehicles, all with paint loss and scratches. The brown truck was repainted at some point and received some reproduction white rubber tires. The greenish gray truck has wooden wheels and steel rims. the blue car has black plastic wheels and the red car has very old and hardened rubber tires with missing material.
- 260** Five cars in all, all original and in nice shape with minor to moderate paint wear as seen. All of them have wooden wheels, the small red car is missing a rear wheel.
- 261** Nice condition but very likely a total repaint. There are some faint dents in the doors from the inside and the axles appear to have been removed. The wheels are original and in great shape and the clockwork mechanism works nicely. Set is 23 1/2" long.
- 262** Truck is all original and in nice shape with scratches and paint wear as seen. Dump spring is very strong, wheels are made of wood with some original paint remaining.
- 263** Truck is in very nice shape with minimal paint wear and nice wooden wheels. The truck appears to be all original with original paint as well. The spring loaded dump bed works perfectly.
- 264** Both vehicles have considerable paint loss and scratches but are structurally sound and all original. Both were originally equipped to have battery operated lights but both are missing parts for that operation to happen, namely the wiring and sockets for the lamps to go into. The sedan has hard rubber tires and the racer has original white tires with many cracks but they are solid.
- 265** Three old pressed steel trucks including a Willys Jeep, pickup truck with modifications including later flare bed added as well as Ertl wheels and an old semi tractor with rubber tires and wooden rims but missing the trailer. all have scratches and paint wear. the jeep is 11" long, pickup is 13 1/2" long and semi tractor is 10" long.
- 266** Both cars have paint wear as seen in the photos but are very structurally sound and the larger car was originally equipped with lights, most of the parts are still here for a lighted toy. They are both equipped with their original white tires but the larger car has a lot of wear around the axles so the wheels sit crooked. The smaller car has some cracking to the wheels but they are still nice and solid.
- 267** Both cars have scratches and paint wear but no broken or missing pieces. The pull back friction mechanisms work a little but will not propel the cars forward. Both mech's need oiled or greased. Both cars have nice wooden wheels. Cars are 9 3/4 inches long.
- 268** Nice old car, all original with some scratches and paint wear. Three of the four tires are folded over from heat damage that likely occurred long ago. This car has unique front and rear bumpers that remind me of a handlebar mustache.
- 269** Truck is missing a lot of paint and has surface rust as well. All parts are all original including wooden wheels. The decals are very faded on one side but considerably better on the other side.
- 270** The large truck is in nice shape with average paint loss and all original parts including rubber tires with wooden rims. The REA truck is pretty rough with lots of litho wear and a missing rear door. This truck has a block of wood attached to it as well as two nails driven in from each side and a large bolt attaching the box to the truck.
- 271** Set is in nice shape with some scratches and paint wear as seen. All original as far as I can see with one very clean auto that has minimal paint loss. All are equipped with yellow wooden wheels. Cars measure 5", truck is 5 3/4" and semi with trailer is 19 1/4" long
- 272** Great looking lithos and only minor paint loss on the truck cab. Wheels are in great shape and retain most of their original yellow paint. Set includes one of the often missing doors. Overall very nice and clean.
- 273** car is in nice shape with average paint wear and scratches. All original parts and paint. The mystery friction action doesn't work properly but the mechanism is not broken or seized up. Car is 10" long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 274** Truck and trailer have normal scratches and paint wear from being played with as well as the coupe and convertible. Includes both ramps as well as having the original jack stand. Three of the four balloon tires on the semi tractor only were made of recycled tin from a Greyhound sign. The two autos are 6" long each and the tractor trailer is 23 1/2" long. The box is in nice shape and also includes the original instruction sheet.
- 275** Bus is all original with nice decals on front and each side. There are some scratches and normal paint wear of a toy of this age. Nice body, very straight with one small dent in the roof just above the drivers seat. Bus is 24" long.
- 276** Bus is all original with nice decals on each side but front one is missing. There are some scratches and normal paint wear of a toy of this age. Nice body, very straight with no dents. Bus is 24" long.
- 277** Bus is all original and in nice shape with scratches and paint wear from being played with long ago. The body is very straight and in great shape with no dents. Bus is 24" long.
- 278** Truck and trailer are in very nice shape with minimal paint loss and are very bright and shiny with nice decals on both sides of trailer that do have a small amount of flaking. The autos are in two different conditions. One is like new and the other has a lot of scratches as seen in the pictures. The truck and trailer are 22" long and the separate cars are 6" long.
- 279** car is in nice shape with some litho wear and minor scratches but nice overall with undamaged plastic windows and nice cloth roof.
- 280** Both cars are in decent shape with scratches and paint wear. the Marx car has considerably more wear as seen in the pictures. The second car is only marked Made in England Patent Applied For. It is very nice looking with minimal paint or litho wear. The left rear fender is bent a little and part of the underbody has been cut away for some reason. It still displays very nicely. Neither car has been tested for operability. The Marx car is 16 1/4" long, the other is 14 3/4" long.
- 281** This car is in nice shape but is missing the top. It looks OK as a convertible but should have a hard top. Its has some scratches and play wear but is free of dents and has all original parts. the car is 11" long.
- 282** Car is in nice shape with paint rubs on the roof as well as a few small scratches on the hood. The wind up mechanism is seized and will not crank clockwise at all. The parts appear to be all original but the headlamps are missing. The toy also has a very old battery still in the compartment but there isn't any corrosion at all. The car is 14 1/4" long and is very heavy.
- 283** Car has a number of small scratches and paint flakes but has nice eye appeal. The parts appear to be all original and it doesn't appear to be missing anything and the lights even work. The wind-up mechanism also works nicely. The car has hard plastic tires marked Girard Balloon.
- 284** Nice shape with all original parts and very little paint loss. There are two very small touchups on the hood and some dust on the toy but great shape otherwise.
- 285** This car is in very nice shape but the body appears to have been repainted, it is a matte red instead of a glossy paint. The car has no damage or missing parts. The steering wheel actually turns the wheels and it works perfectly. The toy has some scratches and paint loss on the bottom but not much
- 286** Car looks really nice but has 3 small touch ups to the paint. Nice shape otherwise with an extra set of rear tires and the original remote control. The box lid is pretty rough with tape repairs, seam splits, water stains and a large chunk missing from one side. The box bottom is all together and in nice shape with some staining.
- 287** Car is in nice shape with a few scratches here and there as would be expected from a toy. There are no broken or missing parts and the car makes a cranking noise when rolled. The car is 9 1/4" long.
- 288** Group of three vintage tin racers. Japan tin friction Golden Jet in fantastic condition with no play wear, 9 3/4" long. Mattel futuristic race car with some paint loss and recent stickers added to it, 11 1/2" long. Nonpareil Red Streak Racer with missing parts, litho wear and surface rust, 9 3/8" long.
- 289** Unmarked but vintage tin wind up race car in very nice shape with minor paint wear and great eye appeal. The wind up mechanism works perfectly and there does not appear to be any broken or missing parts. car is 10 1/2" long and 3 1/4" tall.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 290** Both cars are in nice shape but only the silver one has a working clockwork mechanism. The red car has a few small chunks missing from a few tires and has some minor litho wear. Both cars are 6 1/2" long.
- 291** The Marx Rocket Racer with yellow wheel hubs is in nice shape with small scratches and litho wear but has a nice working wind-up mechanism. The #27 tin racer is missing the driver and the mechanism does not work very well. There is some wear to the lithos as well as minor fading. Cars are 11 3/4" and 16' long.
- 292** car is complete but has surface rust on one side as well as some small scratches here and there. The car does display well from one side. The friction motor does not operate very well at all. car is 9 1/2" long.
- 293** Vintage racer with nice lithos but has some small scratches as seen as well as two small spots of unoriginal paint at the front of the engine. the driver is missing and there is a decent sized dent in the bottom of the car. The wind up mechanism works great. The car is 16 1/2" long.
- 294** This car is all original and missing some paint due to scratches and play wear. The driver is also missing as well as the steering wheel. It is made of pressed steel with tin wheels and a very solid toy. The car is 12 1/2" long.
- 295** Both cars are in decent shape with play wear as seen but display nicely and both operate perfectly. There are no keys included. Tricky Taxi is 4 1/2' long and Comet is 3 7/8" long.
- 296** Very nice tin battery operated race car with hardly any play wear, just some minor paint loss from the silver rims. Great paint and decals as seen in the pictures. The car is 15 3/4" long.
- 297** All three cars are in working condition and appear to be complete with no broken or missing parts; two keys are included for the three cars. The Lotus does have some paint touch ups and all three of them have dust from sitting. The original box for the Ferrari has a tape repair on an end flap that has a seam tear as well as a puncture on the bottom. The cars are 8 1/2" to 10" long.
- 298** Mint in box reproduction Thimble-drome champion in original box with paperwork. It doesn't appear to have ever been removed from the box. Numbered 3314 out of 5000 made.
- 299** Fantastic car in original box / case with what seems to be a custom made wooden bas with slots for the wheels. car has been displayed only, never played with. Includes an used sticker sheet. the car is 10" long.
- 300** This car has been displayed and has dust on it that will wipe clean. There is one small broken plastic part that I do not know what it is. The car looks very nice otherwise and is very highly detailed. The car is 8 1/2" long.
- 301** All three cars are in nice shape with each having a Schuco key. The 1225 is missing the small windshield and has some tarnishing to the brass parts. The 2002 is missing the windshield but has very nice paint with a few light scratches. The 1001 has minimal paint wear but is not missing any parts. The 1225 and 2002 work nicely. The 1001 winds up but with limited resistance. These cars are 5 1/2" to 7" long.
- 302** Lot includes a boxed Minister Delux tin friction toy in nice shape, made in India, tin friction Greyhound Scenicruiser with scratches, dents and missing wheel hubs; a Wyandotte S.S. America ocean liner with edge wear and faded lithographs. The ship is 12" long, bus is 11 1/4" long and the car is 10" long.
- 303** Three tin friction cars are simply marked Japan on the underside, Safety Patrol is made by Lupor, long wind-up streamlined car marked "foreign" on underside, three very small cars are unmarked and the orange / black car is made of pressed steel and has a friction counterweight mechanism that works great going backwards but doesn't go forward at all. These cars range in length from 2" to 6 3/4".
- 304** The roadster is in great shape with some small paint chips and dust from age. It does not appear to have even been used. The lot includes five boxes of 20 solid fuel tablets, a small funnel and steering extension. The car is 15 1/2" long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 305** Lot includes a cast iron boattail speedster with missing paint but an original #5 on each side of the hood and a homemade brass toy has pump. Also included are five pressed steel toys including a row boat, shovel, rake, wheel barrow and trailer cart, all with some missing paint and dust from sitting. Rounding it out are four old Arcor and Auburn rubber toy cars. The Arcor race car is missing a wheel as well as having the windshield and drivers head cut off. The Auburn cars all have paint wear but no missing parts.
- 306** Lot includes Marx hangar, Erie Northrop passenger plane, Thomas Toy Atom Bomber and Tootsietoy service station gas pumps. All of the items are in nice shape with only minor paint wear to the die cast items.
- 307** Lot includes Marx Union Pacific M 10003 wind-up toy, Unique art Sky Rangers blimp, Wolverine clockwork submarine with missing key and a partially missing weight from the bottom, Made in USA Sweetie Pie 55 wind-up boat, Alps Speed Queen wind-up boat with missing handle and three empty tin toy boxes. Empty boxes include Walking Beetle, Hopping Bobby the Bear and Friction Powered Jet Fighter.
- 308** This boat is in nice shape with minor scratches and litho loss. There are not any missing parts and the battery compartment is very clean with no corrosion at all. The boat is 14 1/2" long and 6 1/2" tall.
- 309** Very nice looking toy with some paint and litho wear from the wheel surfaces and cab roof but little wear otherwise. the wind-up mechanism is not currently working but is easily accessible. The tractor is 9 1/4" long and 6" tall.
- 310** Super nice toy with minor litho wear on sides and some small scratches but overall very nice and bright toy. The windup mechanism will wind up but only a couple of turns until it unwinds immediately. It should be able to be fixed quite easily. The toy is 10 1/2" long and 4 1/4" tall.
- 311** This is a fantastic looking toy with minor play wear and bright, vivid colors. The toy works great and is very neat and clean. The car is 8" long and 6" tall.
- 312** Great old favorite here with a long scratch on one side but very little wear elsewhere. Toy appears to be complete and all original. The windup does work but is sluggish. The car is 8 inches long.
- 313** Toy has small scratches here and there and two larger rubs on one side. All original with no missing parts. The windup mechanism does not work when right side up but will run when the toy is upside down. Pluto is 9" long.
- 314** Toy has minimal wear and is very bright and shiny with no broken or missing parts. The windup works perfectly and the toy shake in circles as the tail turns circles behind him. Goofy is 5 3/8" tall.
- 315** This toy has a lot of small scratches and small rubs as well as minor surface rust on three different places. He still displays well and the windup mechanism works great but he still has a hard time walking across a table. Popeye is 8" tall.
- 316** Both toys are in great shape with minor wear and very bright lithographs. No missing or broken parts and both toys work perfectly. The clown is 4 3/4" tall and the bird is 3" tall.
- 317** Wee Scottie toy has scratches rubs and some surface rust but no missing parts. The leopard and tiger toys are both in great shape with some scratches on the right side only of each toy. The two cats do not appear to be missing any parts as both tails and all four ears are intact. None of the three toys have a working windup mechanism.
- 318** All original truck with many small scratches and litho loss from the billboards on the sides as well as the REA markings. The body is very nice and straight with a few slight bends or dents but nothing major. The truck is 23 1/2" long.
- 319** Steelcraft truck appears to have all original parts with the exception of one screw. The truck has had a couple welded repairs but retains great structural integrity and a nice patina. There are a lot of scratches and paint loss mainly in the dump bed. There is some pitting from rust on the right front wheel and some tire damage on the right rear with some chunks missing. The Buddy L cab was repainted and has some pent metal here and there but would be a good restoration piece. The Metalcraft truck is 24 1/2" long and the Buddy L is 17" long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 320** Truck is all original with normal play wear and paint loss. The rear axle mount is bent up from the bottom on one side but should be fixable. The tow boom appears to be original but has been repainted. Unsure if the hook is original or reproduction. The decals on the sides look nice with some wear and the tires all have Buddy L on them. The box is complete with no missing flaps but has some small tears, some writing and some water stains on the bottom. The main body of the box is still firm but the opened end flaps are a little soft from age and handling.
- 321** This truck is in nice shape and appears to be all original but is missing the tow boom. It is equipped with lights and they still work with a D battery. The paint looks really nice on this old fella with some scratches from play wear. The wheels are in great shape with no damage. The truck is 19 1/4" long.
- 322** Fantastic looking car with all original parts except the wiring to the headlights. Car is missing paint as seen but remains a nice looker with no missing or broken parts. The car is 19 3/4" long.
- 323** Very nice looking tin truck with no missing parts and all original in every respect. There is some missing paint from play wear but the truck has great eye appeal. It even has a drop down gate in the back. The truck is 19" long.
- 324** Fantastic old truck, all original with three ladders. Apperars to be missing possibly a bell from the hood. The truck has some white paint that was likely splattered on the hood from a home painting project a long time ago but nice paint everywhere else with play wear as seen in the pictures. The truck is 20" long.
- 325** Both trucks are old but have some replaced parts such as axles and wheels and have been repainted as seen in the pictures. Both are unmarked and could be from any manufacturer, Turner was my guess. The trucks are 20" long each.
- 326** Truck is in great shape structurally and has a nice looking restoration job. Equipped with battery operated lights (battery & lamps not included). Truck is 15 1/2" long.
- 327** Truck has been restored but has replacement wheels all the way around with one loose original wheel. The paint and decals look very nice and the axles appear to be original as well. The truck is 17 3/4" long.
- 328** Truck has been fully restored with replacement axles and possibly replacement wheels as well as some replacement hardware. A fantastic looking truck but has some scratches on the gun where it adjusts and is missing the spring firing mechanism. The truck is 23 1/2" long.
- 329** Very nice restoration on a vintage truck. Very straight body with what appears to be all original part with the exception of a couple pieces of hardware. The truck is 26" long.
- 330** Truck is custom decorated but maintains 95% original parts. The custom painting on the sides could have been done better but appears to have been done by hand. Truck is 23 1/2" long.
- 331** Truck has been professionally restored but has some decal issues on one side. Unsure as to how many replacement parts were used but the truck displays very nicely. The truck is 24 3/4" long.
- 332** Not really sure what this was or is since the truck has something of a 5th wheel that isn't being used anymore. It may be a total reproduction or could be repainted old parts but the parts seem awfully nice to be vintage. Truck is 23 1/2" long and sold as seen in pictures.
- 333** Truck is in great shape with no play wear and is numbered 45 of 475 that were reproduced. A classic of the Buddy L toy from many years ago. The truck is 24" long.
- 334** car is in great shape with a professional restoration job done with all original metal parts but the rubber is all replacement. Friction mechanism turns but does not carry the vehicle far at all. The car is 17 3/4" long.
- 335** Locomotive is all original with some scratches, missing paint and surface rust. Lithographs on sides are faded on one side and scratched and rusted on the opposite side. There are a couple missing parts including a small decoration on the nose and a large bell from the front. Locomotive is 27 1/4" long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 336** Group includes two Wolverine Aeroplane Race tin spinner games with checkerboard on opposite side, both are in nice shape with bright, clean graphics. Also included are a Chein tin butterfly push toy that works great and an Ohio Art tin top that has some scratches and litho wear but works perfectly. Game boards measure 16 1/2" and 11 1/4" across, butterfly wing span is 9 1/4" and the top is 7" in diameter.
- 337** Fantastic little gas station with very little wear at all and very nice lithographs. There are some scratches on the gray base and minor fading on the roof but really nice overall.
- 338** Group includes a Walt Disney Mechanical Train Set (missing the train) with a nice clean and colorful track layout in original box, Silver dollar street front in nice shape but no accessories and another mechanical train set that is missing the train and the crossing gate.
- 339** Group includes an Ichiko passenger train with a damaged pantograph and a few dents underneath, Cragstan City Trolley lines friction toy with a lever action friction drive in nice shape but has dents on both ends and an unmarked but vintage tin windup IBI R.S.A. street car in nice shape with a working mechanism.
- 340** The Aero windmill is in a factory sealed box and presumably mint. The ranger tin mechanical billiards table is missing the windup mechanism but looks unplayed with otherwise and includes a rough original box that is missing all but one inner flap.
- 341** Lot includes a Technofix Toboggan ride with one complete car and one shell for a car. The green and yellow track is only marked US Zone Germany and includes straight, curve and switch sections as well as small trestle pieces.
- 342** Group includes a tin track with locomotive and cars (like new in box) and a tin friction rocket ship with a broken wheel and a locked up friction mechanism (both made in Hungary). The last toy is a tin lithographed skiing related toy with a car that climbs and rolls back down. Instructions are in Russian, toy appears mint and unused in a very nice original box.
- 343** Nice looking old steam engine with generator, unsure if it works but it is very clean and shiny. The electrical cord is in nice shape and supple.
- 344** Nice looking wooden fire truck with three ladders. Well made and the wheels really roll. The truck is 15 1/2" long.
- 345** This box appears to contain well more than one set with five separate instruction sheets and thousands of parts. There are lots of plastic girder pieces, wooden base pieces and vac u form panel pieces. Many of the vacu formed pieces have damage but it should make for a lot of fun for someone.
- 346** Modern era soldiers in mint condition in original box.
- 347** Mint unused 1/16 scale radio controlled tractor in a nice original box. Lot also includes four reproduction tin signs.
- 348** Lot includes 26 mint in box cars as well as three loose cars in nice shape. The models range in age from the 1960's to the 1980's. Boxes range in condition from perfect to slightly worn with damaged windows.
- 349** Lot includes various makers including Manoil, Tootsietoy, Solido, Corgi, Matchbox and others. Cars range in condition from good to mint.
- 350** 1959 and 1960 Cadillac Fleetwood friction cars, one with a broken rear fin and both with warped front ends. The rest are all Cadillac Fleetwoods and all are Jo-Han promo cars. 1960 is in nice shape with no damage, two 1961's, a blue one with a missing right rear tire and a missing tail lamp lens and a white one with a broken fin on the right side. 1962 is in great shape with no issues.
- 351** Wooden toy trains including Toia, Blockraft and Childhood Interests all new in box. Miamicraft lines train also included and in nice shape but no original box. These trains vary in size and colors.
- 352** Box car is in great shape with a few small dents and paint wear on the corners and raised edges. Markings and lettering looks very nice on both sides with nice bright paint. There are no missing parts and everything is all original. The car is 33" long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 353** Locomotive is all original with some scratches, missing paint and surface rust. Lithographs on sides are in nice shape with minor wear. There don't appear to be any missing parts. Locomotive is 27 1/4" long.
- 354** Locomotive is all original but missing hand rails from the sides of the boiler and decorative trim on the front as well as the top steering handle and the handle for the brake. There is paint wear and minor to moderate surface rust on a few different areas. The decals on the sides are mostly intact with some flaking and the one on the boiler front is almost entirely gone. The locomotive is 26" long.
- 355** This lot includes 26 sections of curved track, two passenger cars, two box cars, two gondolas and one locomotive. the locomotive is missing the foot pegs, handle and some electrical components inside. The locomotive will definitely need some servicing and new parts to get back into working condition. There are scratches and play wear on the locomotive but the cars seem to be nice and clean with no missing parts and nice decals. This is a very large and heavy lot, shipping will be pretty high so come and bid in person if you can.
- 356** Very large box full of built buildings with hundreds of parts in nice shape. Also includes 5 boxes in rough to acceptable condition and many tape repairs along with two instruction sheets. Also included is an old block set in box with some instructions. Lot will be heavy and expensive to ship.
- 357** 24" x 12" x 12" box full of vintage and newer toys and toy parts in various condition, some nice, some rusted, some damaged. Lot is very heavy and would be better suited for the live bidder.
- 358** Lot includes four unbuilt kits, one is sealed, three built cars and one partially built. Lot also includes a Hubley P-38 Fighter in box that is like new and a small plastic model wood chipper possibly in O scale. The boxes are all in nice shape and display nicely.
- 359** Group of toys including a Tomy Verbot in Box and Ideal Boaterific Tug boat along with a few other modern robots and Mr Potato Head massager.
- 360** The box is nice and square but has writing on the top flaps and both ends but the front, back and bottom all look nice. The box is very square and sturdy and has great graphics on the front. The box measures 23" x 15" x 13 1/2".
- 361** Three old slush promo cars that appear to be repainted but may very well be all original. The wheels are made of white rubber that is hard and has age cracks and a flat spot on one of them. They are definitely vintage due to the signs of fatigue that are coming on to the running boards but only slight signs, no major issues at all. There is some metal missing from two of the cars that appears to be from bad castings or possibly a small piece broken off of one. All three cars are virtually the same, just painted differently. Each car is just over 7" long.
- 362** The Ferris wheel parts include the two main frames but no cars, base with uprights and electric motor. The parts have flaking original paint and surface rust but would be a great restoration project.
- 363** Lot includes several fire hydrants including four Tonka as well as other made of cast iron or plastic. Also included are several metal ladders, a couple die cast vehicles and four RSH Fire Kits with presumably all T8 1918 Crosley Fire Tender Conversion Kits inside.
- 364** Lot includes 16 buildings, several vehicles, several trees and a several bases. the buildings are all small and in HO scale or smaller. made of wood with paper lithographs on the outside.
- 365** The Falk engine is dirty and tarnished a bit but looks like it could be cleaned up to look very nice. The Jensen has been used and has some missing paint from the base and discoloration here and there. The Falk engine is marked JF 406 on the underside of the cast iron base as well as made in Germany. The engine is 12 1/2" tall.
- 366** Lot includes Britains and Corgi items that are either new in box or just empty boxes or just loose figures or accessories. Also includes a partial Marx tin castle, Viewmaster items and other various toys and toy parts.
- 367** Lot includes a partial Playskool Holiday Inn set in Box, two Kenner milk cows and several Fisher price items.
- 368** Lot includes makers such as but not limited to Hot Wheels, matchbox, Corgi, Dinky, Marklin, Solido, Ertl and Britains. There are quite a few vehicles here ranging from poor to excellent condition and everything in between.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 369** Lot includes 14 anchors in 5 different styles made of die cast or cast iron. Also includes 10 propellers made of cast iron, die cats and plastic. The largest anchor is 3 1/2" long.
- 370** Racing Champions 1 / 64th scale NASCAR racing haulers in original packages. Drivers include Jeff Gordon, Tony Stewart, Matt Kenseth, Ward Burton, etc. Items are new C9-10. OBs have light shelf wear.
- 371** NASCAR racing 1/64th race haulers in OBs. Manufactures include Revell, Winner's Circle, Hot Wheels Racing, etc. Drivers include Darrell Waltrip, Jeff Gordon, Tony Stewart, etc. All are new C9-10. OBs have some light wear
- 372** Group of die cast Pepsi Cola trucks and more. Twenty five trucks total. Eight vehicles include the original boxes. Manufactures include Road Champs, Golden Wheel, Matchbox, and more. Items are C8 to C10.
- 373** Matchbox Collectibles diecast vehicles in OBs. Twelve 1/43rd vehicles includes McDonalds, Texaco, Campbell's, etc. See photos for best description. Cars are C9-10.
- 374** Nice large group of 1/43rd vehicles in OBs. Thirty six total. Manufactures include Road Champs, Classic Vehicles, Road Signature, Ertl, etc. Most are classic cars, 1/43rd Snap On tool set also included. See photos for best description.
- 375** Pem and Winross die cast trucks in OBs. Seven trucks total. Names include Coors, Burlington Northern, Atlas Van Lines, MAC Tools, etc. Trucks are new C9-10
- 376** Ertl Collectibles and Road Legends die cast cars and displays in OBs. Includes Ertl Wally's Service Station, Dolly's Drive In, Class of 67' set and Indy 500 Pace car set. Road Legends sets include Ford truck set and set with Corvette, Bel Aire and Nomad. Sets are C9-10. OBs have light wear. Cars are 1/43rd.
- 377** Large tub of toy construction vehicles. 75 or more vehicles. Most are Matchbox size or larger. Includes dump trucks, graders, Caterpillar equipment in original packages and more. See photos for best description.
- 378** Large group of farm toys from Ertl, New Ray, and others. The bulk is Ertl and includes plenty of John Deere and Caterpillar items. Some used and a good deal new in the package. Also includes Ertl Round Barn play set and New Ray Country Life play set. Items are C7 to C10.
- 379** Two 13 x 26 flats filled with Ertl, Norscot, and Tonka farm toys. Most are John Deere or Caterpillar. Many are new C10 in their packages. See photos for best description.
- 380** 46 packaged plastic and die cast vehicles. Most are Ertl, AHL, Mastio, and more. Includes trucks cars, construction equipment, etc. See photos for best description.
- 381** Large flat full of die cast and plastic vehicles perfect for a layout. Garbage trucks, street sweepers, semi trucks and more. Most are 1/43rd, some smaller and some larger. See photos for best description. Most are C8 condition. 40+ vehicles.
- 382** Norscot Scale Model diecast 1:50 scale Caterpillar construction vehicles in OBs. Eight trucks include 55166, 55169, 55138, 55207, 55118, 55117, 55169, and 55117. All items are new in box C9-10. OBs do have some light corner and edge wear.
- 383** Norscot Scale Model diecast 1:50 scale Caterpillar construction vehicles including 55165, 55191, 55073, 55151, and 55158. All are new in the box C9-10. OBs have some light corner and edge wear.
- 384** Norscot Scale Model diecast 1:50 scale Caterpillar construction vehicles. Four models include 55098, 55100, 55161, and 55151. Items are new in box C9-10. OBs have some light wear.
- 385** Norscot Scale Model diecast 1:50 scale Caterpillar construction vehicles in OBs. Six items include 55025, 55151, 55027, 55061, 55104, 55073, 55191, and 55097. Items are new in the box C9-10. OBs have some light wear.
- 386** Norscot Scale Model diecast 1:50 scale Caterpillar construction vehicles including 55175, 55099, 55097, 55133, 55164, 55142, 55191, 55175, and 55115. Items are new in the box C9-10. OBs have some light wear.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 387** Norscot Scale Model diecast 1:50 scale Caterpillar construction vehicles including 55175, 55099, 55143, 55189, 55104, 55058, 55097, and 55104. Items are new in the box C9-10. OBS have some light wear.
- 388** Seven Matchbox King Size, one Winross, and one Solido diecast toy vehicles. Solido No. 3114 Mercedes Lance Mousse in original box, C9-10 box has wear to cellophane display window. Winross Howard Johnson's semi-tractor and trailer. Matchbox K-4 Fruehauf hopper, K-12 Scammell Laing Mobile Crane, K-12 Aveling-Barford front end loader, No. 5 Foden dumper truck, No. 4 McCormick International B-250, C6 area.
- 389** First Gear Construction Pioneers 40-0200 International S Series tow truck, 1:25 scale diecast toy in original box missing trim pieces, displayed C8 area. Box shows no wear.
- 390** Lot includes makers such as Tri-Ang Minic, Tootsietoy, Superior and Framburg. The ships range in condition from good to new in box. There is also a tin lithographed cruise ship marked US Zone Germany and a made in Japan wooden model boat that is battery operated.
- 391** Lot includes makers such as Midgetoy, Tootsietoy, Lone Star, Barclay and Dinky. There are locomotives, cars and a few accessories.
- 392** Lot includes six reproduction pieces as well as several vintage pieces that have damage or missing parts. This lot is very heavy and will cost a lot to ship.
- 393** Lot includes 14 vehicles, a wheel barrow, two small cash registers and a die cast toilet. Most are in nice shape with what appears to be original paint but many have rust on the wheels.
- 394** Lot includes 8 different pieces of which 6 are complete but two are repainted. the bus is missing the front wheels and axle and the wagon is missing a piece that attaches the horses to the tow bar.
- 395** Stove is in need of an overhaul with rust and missing paint but the pieces are all in nice shape with no dents or damage. The electric cord is missing and will be hard to replace.
- 396** Piano works and is in nice shape. Includes six rolls and four boxes. Piano measures 20 1/2" x 9 1/4" x 20 1/8".
- 397** Set appears to be in nice shape and has been used. Completeness is unknown but many parts are included. This is a very large box and shipping will be fairly high.
- 398** Group includes Tootsietoy, Ertl and Matchbox cars as well as other manufacturers. Also included is a Erector Radar scope set in box that has a lot of parts but may or may not be complete. Most of the parts are nice and clean while a few have rust on them.
- 399** The carousel is in nice shape and includes a transformer, operability has not been tested. The Santa toy is marked japan and in a nice original box. The lot also includes a vintage japan snowman lantern.
- 400** Fantastic looking toy with great color & very clean with no damage. Box is dated 1962 and in nice shape but somewhat faded.
- 401** Lot includes Marx Bengal Tiger and Honeymoon Express, Chein Marx I cabin cruiser, and two other unmarked tin toys. Everything works but the bird on bicycle is a bit sluggish. Also included in the lot are two Marx travel trunks that are in nice shape.
- 402** Lot includes 8 locomotives, one tender, a train station and two cars in original boxes. Other items include a Kiddie car Classic billboard, homemade wooden tractor and six small John Deere wooden crates with dovetailed corners.
- 403** Lot includes an assortment of Coke collectibles as well as several toy gas pumps from Gearbox and possibly other manufacturers. Some items are loose and still like new while others are mint in box.
- 404** Lot includes a thin organizer that is 14" x 7 1/2" with 35 separate compartments for small repair parts for mainly small die cast toys but there is a big mix of things here, some are ready to be used and some are broken.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 405** Lot includes 20+ tanks and other military vehicles as well as approximately 40 soldiers. Also includes several civilian trucks and cars. The trucks are 2 3/4" to 3" long and the cars are 2 23/8" long. The tanks all vary in size. The soldiers are all in the prone position and would be approximately 3/4" tall if standing.
- 406** Lot includes some tin lithographed, pressed steel and paper toys. The three main items include a Buddy L LST47 with some rust and a broken chain, a Suzy Goose dairy farm and a Russell game library. Everything else is generally incomplete or damaged.
- 407** Group includes a neat Mack ash tray made by Central Die casting in Chicago, four REO items that appear genuinely old including a tin decorative piece and a glass lamp lens, a Diamond REO keychain as well as a heavy brass placard. The last items are five Allis-Chalmers placards that are secured with two beveled screws (screws not included).
- 408** Lot includes a C9 Greyhound bus in original box as well as a lot of different track section. 8- #18 straight, 10- #12 straight, 4- #6 straight, 4- #3 straight, 4- A90 curve, 3- B90 curve, 8- B45 curve, 4- C45 curve, two sets of switches, a 45 degree railroad grade crossing and a Trix Express switch controller
- 409** Lot includes makers such as Ertl, Spec Cast and Enesco. Three are mint in package, the balance have all been displayed but remain in excellent or better condition.
- 410** Lot includes makers such as Matchbox, Gabriel, Ertl and others. A few unmarked but all mainly newer die cast from the 1980's and up.
- 411** Group included Full Throttle, Jada, Maisto, Matchbox and Hot Wheels cars all mint in blister packages. 23 vehicles total.
- 412** Makers include such names as Matchbox, Malibu International and Kid Connection. Lot includes eight packages by malibu, five packages by Matchbox and four packages by Kid Connection. the cars are all mint in unopened packages.
- 413** Lot includes such manufacturers as Brumm (4 cars), Minichamps (10 cars) and matchbox (11 MIP Cars, 5 loose cars). Most of the Matchbox boxes have significant wear but only one Brumm box has issues (broken clear case lid).
- 414** Manufacturers include Road Champs, Ertl, Zee, Matchbox, Soma, Tootsietoy and Franklin Mint. All are new in box or blister card.
- 415** Lot includes manufacturers such as Corgi, Model power, Matchbox and Ertl. All 28 are mint in package.
- 416** Lot includes Island of Dr Hibbert boxed set, five bendable figure sets, three talking watch sand two ornaments all mint and unopened. Loose items include stuffed Homer and Bart figures and rubber Homer, Bart and Marge figures.
- 417** Lot includes cars driven by Mario Andretti, Al Unser Jr., Raul Boesel, Nigel Mansell, Emerson Fittipaldi and Alessandro Zampedri. These are very nice cars with nice clean original boxes. Mint and never removed from package.
- 418** Lot includes seven different cars, there are two 1998 Corvette pace cars included. The complete set is here based off of the box backs.
- 419** Group includes four 1:18 Hot Wheels F-1 cars and six racing Champions 1:24 Indy cars. All are mint in unopened packages.
- 420** Lot includes five cars from the Grand Prix collection, three from the Michael Schumacher Collection and a 1975 World champion Ferrari. All cars are mint in unopened packages.
- 421** Lot includes a limited edition Juan Montoya car, only 2,304 made and five Pauls Model Art McLaren Collection cars, all mint in box.
- 422** Incredible lot containing die cast cars in 1:24 and 1:64 scales, trading cards, collectible tins, two model kits and other items. This is a very heavy lot and will cost a lot to ship.
- 423** Lot includes four American Muscle 1:18, four Revell Collection two 1:18 and two 1:24 and five racing Champions 1:24 scale cars. All are mint in unopened boxes. This lot is very heavy and will cost a lot to ship.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 424** The lot includes cars from all eras and includes such names but not limited to Dodge, Ferrari, Chevrolet, Jaguar, Mercedes, Lamborghini and Volkswagen. All cars are mint unopened except one which is a 1:24 Bugatti which has been opened but is loose in the box. Some boxes are very dusty but should clean up quite easily. This lot is very heavy and will cost a lot to ship.
- 425** A nice group of cars, all in mint unopened condition. The packaging may have some minor damage and will likely be dusty.
- 426** Lot includes three American Muscle, three Maisto, two Universal Hobbies and one Revell 1:18 scale die cast cars. All of the cars are mint in unopened packages. Boxes may have shelf wear and very likely have some dust on them.
- 427** Lot includes various manufacturers and numerous makes and models of cars. Some are mint unopened while others have been opened and may even be in incorrect boxes. The boxes may have some damage and will likely have some dust on them. This is a very heavy lot that will cost a lot to ship.
- 428** Lot includes five funny cars and nine top fuel dragsters. All of them are mint in original packages. Some of the boxes may have shelf wear or dust. This is a heavy lot and will cost a lot to ship.
- 429** The cars in this lot are all in really nice shape but some are very dusty. The rest are clean and all should display very nicely.
- 430** Lot includes a Metalcraft bottling truck, three mechanical or operating banks, trading cards, ornaments, tins and other items. Most new in box but some of the cards were opened and another truck is loose and has a couple missing coke crates.
- 431** Lot includes two MIB cast iron motorcycles, a Franklin Mint Indian motorcycle that was opened but doesn't appear to have been removed from the Styrofoam, a bank, a Matchbox Service center Playset and a loose reproduction cast iron patrol motorcycle.
- 432** Lot includes Terminator 2, Alien, Lion King, X Files, Jurassic park, Lego toys and a Loopin' Louie game. All are in nice factory sealed packages or blister cards.
- 433** Lot includes Kenner Batmobile & Combat belt Batman both MIP. Also includes are three Warner Brothers vinyl figures of Batman, Robin and Superman. Last is an Applause Dick Tracy figure with original stand and tags.
- 434** Lot includes mainly Schylling and paya reproductions but others are mixed in. Some were displayed and have dust on them while others were never removed from the box.
- 435** Lot includes such manufacturers as Solido, First Gear, Corgi Classics, Spec cast and Xonex International. Most are mint in box but other loose toys are also included. This is a very heavy lot that will cost a lot to ship.
- 436** Lot includes six airplanes and four vehicles, all being toy banks. Each one is still in mint condition in its original box.
- 437** Lot includes manufacturers such as Corgi, Spec Cast, Gearbox, Franklin Mint and others. All items are like new to mint in box.
- 438** Group includes several loose / unboxed trucks that have been displayed but not played with. Those have dust on them while there are three that are in original boxes. The Heinz truck was removed and displayed but the Miglio car and the Spec cast truck are mint in box.
- 439** Beautifully restored Steelcraft Sport Roadster #510. Built in 1937 this pedal car is in great shape and has been displayed only, never played with since the restoration. There is some dust on it but that will clean off quite easily. The car is 36" x 18" x 22" and weighs approximately 40 lbs.
- 440** Lot includes 1996 Emergency Truck, 1997 Toy Truck & Racers, 1998 Recreation Van, 2004 SUV & Motorcycles and the First Hess toy truck bank, all in original boxes. They all appear to have never been played with and may have never been removed from their boxes.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 441** Lot includes 1996 Emergency Truck, 1997 Toy Truck and Racers, 1998 Recreation Van, 2003 Toy Truck & Racecars and 2005 Emergency Truck with Rescue Vehicle, all in original boxes. They all appear to have never been played with and may have never been removed from their boxes.
- 442** The Jaguar is in mint condition but the paint seems to have some factory issues on one side. The other car is a 1:18 scale Johnny Rutherford vintage sprint car, numbered 982 of 3504 produced. It is in mint condition and doesn't appear to have ever been removed from the box.
- 443** Lot includes 1:48 scale F-14 Tomcat and F-18 Hornet and a 1:40 scale AV-8 Harrier. They have been displayed and have dust on them but should clean up to like new condition.
- 444** Lot includes a few different scales of aircraft. Five are made by Spec Cast, one by Ertl, one by Hallmark and the last three are made by other various manufacturers. They have been displayed and will likely be dusty. One has some paint chipped from the top wing and a German plane has a missing blade from the propeller but the rest appear to be like new aside of the dust.
- 445** Group of toys including Disney Pixar Cars, 1999 radio Shack Stuart Little remote controlled car, a few made in China cars in boxes, some stuffed animals and a few diecast pieces, some mint on card, some loose.
- 446** Lot includes five reproduction cast iron toys, a modern era GI Joe in box, an incomplete set of small printing blocks and a Sears radio controlled tank.
- 447** The car is in nice shape but has a missing hub cap. There is only minor play wear and the toy does operate but I'm not sure if it operates properly. The car is 10 3/4" long.
- 448** Lot includes five kits, three are mint sealed and two have the shrink wrap removed but have sealed parts inside. All are 1:48 scale.
- 449** Lot includes four mint sealed kits and one that is missing the shrink wrap but has sealed parts inside. All five kits are 1:48 scale.
- 450** Both kits are still factory sealed in nice boxes. Included area grumman F6F-3 Hellcat and a Republic P-47D Thunderbolt. Each kit is marked SCALE: 3/4" = 1'0"
- 451** The stearman PT-17 Pilot Trainer kit is still factory sealed but the Spirit of St. Louis kit has been opened and started. It doesn't appear that much has been done but there are some parts that have been cut. Each kit is marked SCALE: 3/4" = 1'0"
- 452** Lot includes 14 kits, seven sealed and seven with shrink wrap removed. There are three balsa kits and the rest are plastic. Manufacturers include Lindberg, Monogram, Revell, Sterling Guillows, Minicraft, Glencoe, Tern and AMT. Scales range from 1/32 to 1/48.
- 453** Lot includes all military aircraft. The boxes all have either dust or damage or both. All of the kits have been started to some extent with mainly painted parts but there are quite a few pieces that have been assembled but just not many per kit. The kits are mainly 1:48 scale but the is a 1:32 scale kit.
- 454** Lot includes a reproduction Revell X3 Stiletto, Lindberg Curtiss Goshawk (sealed), Stiletto X3 and stearman PT-17 and a Glencoe Grumman J2F-2 Duck (sealed). None of the kits have been started, the three without shrink wrap still have sealed parts inside.
- 455** Lot includes si tamiya kits and two Hasegawa kits. Two Tamiya kits have been opened but all of the parts inside are still sealed, both hasegawa kits are factory sealed. All of the kits are 1:48 scale and have nice looking boxes,
- 456** Lot includes four 1970's kits that have all been opened but all parts are still on the sprues but the boxes have minor to major damage and staining. Each has its original instructions as well as original decals.
- 457** Lot includes six civilian and six military aircraft. There are five sealed military kits and three sealed civilian kits. Of the opened kits, they all appear to be complete and two of the four are still in sealed bags inside of the boxes.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 458** Lot includes one 1:48 scale kit, seven 1:32 scale kits and one Pratt & Whitney “Wasp” scale engine kit where 1 1/2” = 1’. All of the kits appear to be complete and none have any work started. There are two sealed kits but all of the rest are missing shrink wrap.
- 459** Lot includes three factory sealed kits and two that are missing shrink wrap but have complete mint kits inside. There is one 1:32 scale kit and four 1:48 scale kits.
- 460** Nice looking model kit. It has been opened and parts were checked over but completeness cannot be fully determined. It is possible that two small packets of cast parts are missing but the parts list doesn’t make specific mention of the packets according to letter, just according to part numbers that are included. Two of the packets were opened but all of the parts have been accounted for. The rest of the kit is untouched and includes highly detailed instructions.
- 461** Both kits are factory sealed, includes B-24D Liberator and Ju 52/3m Transport.
- 462** All three model kits are still factory sealed. The lot includes Phantom Mustang (skill 3), PBX-5 Catalina and B-17G (both skill 2).
- 463** Lot includes a factory sealed 1:48 Monogram B-36 Peacemaker and an opened but complete and unstarted 1:24 MPC P-51 Mustang.
- 464** Lot includes six 1:72 kits (one factory sealed and four either built or incomplete and partially built), one 1:87 kit (factory sealed) and four 1:48 scale kits (one factory sealed). manufacturers of the complete kits include MPM, Walthers Cornerstone, Italeri, Hobby Craft, DML, HSO and K&B.
- 465** Lot includes 1:72 Minicraft PBX-4 Catalina (opened with sealed parts inside), 1:32 Revell Bell X-1 (opened with sealed parts inside), 1:32 Revell Navy Grumman F3F-3 (opened with loose and partially built kit inside) and a 1:48 Monogram Heinkel He 111 German Bomber (opened with sealed parts inside).
- 466** Lot includes four complete kits although three have been opened. The two older kits that have been opened have loose parts as they were never sealed in bags at that time. Those two kits appear to be complete but a total inventory was not taken.
- 467** Lot includes two opened but appearing to be complete plastic model kits. The Revell Kit is 1/570 scale and the parts inside are out of their plastic bag and have not been inventoried but the parts are all still on the sprues. The Minicraft kit is 1/350 scale and appears to be complete with mainly all factory sealed parts inside besides the hull.
- 468** Lot includes two Pyro kits, one partially built and the other was not started, two AMT kits with a complete unstarted Corvette and a partially built Don Garlits dragster. The Revell kit is hard to determine since some of the wheels have been assembled but there are several large sprues with many parts on them, unsure if either kit is complete or missing parts. All of the boxes have one issue or another including dust, dirt, over sprayed paint and crushing issues.
- 469** Lot includes five unbuilt kits and one built. They consist of a 1/20 Lamborghini Countach LP 500S, 1/24 Metal Body Plymouth Prowler (built up most of the way) and four 1/25 Jimmy Flintstone resin kits.
- 470** Lot includes two sealed kits and two opened, one has been started. They sealed kits are a Revell McDonalds Rail Dragster and a Lindberg 1935 Auburn Speedstre (both 1/25). The opened kits include a 1/25 galaxie limited 1948 Chevrolet Sedan Delivery in sealed bags and appearing to be complete and a Revival 1/20 W163 Mercedes Benz that has scattered parts inside and may or may not be complete, there are hundreds of parts for this kit. All four boxes are in nice shape.
- 471** Toy is in original box with COA and numbered 2114 of 10,000. It is also personally signed by Ken Kovach. The unfortunate part is that the left front headlight is missing. It would still display nicely from the right side.
- 472** Set is in great structural condition with some scratches and paint loss and will need a good cleaning. There is a small missing Ford emblem from the front of the truck. The decals look nice on both sides but they aren’t complete. The truck is 13 1/2” long
- 473** This jeep is in nice shape with some scratches and minor paint loss with no missing parts or damage. The battery compartment is very clean but the lights have not been tested. The jeep is 11” long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 474** Great old wind up car with average play wear including small scratches and a few rubs here and there but overall in nice shape. the car is 12 3/4" long.
- 475** The Structo truck is in nice shape with some paint loss and chipping decals but works great and has no missing pieces. The live steam toy has corrosion in several places and a few missing nuts but should clean up fairly well to display. The truck is 12" long and the steamroller is 12 3/4" long.
- 476** Lot includes a 1995 Marx Pepsi truck that is missing an original crate of bottles and an older plastic and tin wind up tractor with a broken and missing hitch. Both toys could use a cleaning and the tractor was tested and works. The truck is 10" long.
- 477** Nice looking set, all original with nice looking locomotive that works great. there are some small scratches but very little paint loss on this little beauty. The tender is in nice shape as well as the three passenger cars and one observation car that are included. There are eight pieces of curved track and two pieces of straight for this nice old set.
- 478** This is a nice looking set with minor wear and mostly small scratches and some larger rubs where the cars abut each other. The set is dusty and will need cleaned up. Operability has not been tested.
- 479** Nice looking set with printed side frames and a red Commodore Vanderbilt style wind up locomotive that works great. The cars do have significant wear and scratches but still look nice. The set includes: 552 gondola, 553 tank car, 547 REA baggage car, unnumbered operating searchlight car and wrecker car.
- 480** This is a nice looking set with less than average wear with some small scratches and thinner rub lines. The set includes the M 10005 locomotive, Denver and Los Angeles passenger cars, REA Post Office car and Squaw Bonnet observation car. They have a little dust but will clean up quite easily.
- 481** This is another nice looking set with painted side frames. The set includes a Commodore Vanderbilt electric locomotive (operability untested), New York central tender, 1678 hopper, 91453 box car and 694 caboose. the set box is in nice shape with a faint but legible set number on one end. There is no track or transformer included.
- 482** Unknown set number so this may be in the wrong set box but is an actual set put together by Marx. The cars are all in nice shape with minimal to moderate wear. the set includes a red Commodore Vanderbilt electric locomotive that has been repainted as well as a New York central tender, two 245 Bogota passenger cars, two 246 Montclair passenger cars, a 201 observation car, six pieces of curved track, four sections of straight track, a transformer and a track power clip. The box is in decent shape with all original inserts but two split corners. It also includes the original instruction sheet.
- 483** This set is most likely mispaired but there is no number on the box to determine what originally came in it. The set that is included consists of a gray Commodore Vanderbilt locomotive, a New York Central tender, 245 Bogota, 246 Montclair and 201 Observation cars. All of the cars have painted side frames and are in decent shape with scratches and small dents. the set also includes two accessories and a transformer. The box is worn with a split corner and water stains.
- 484** Lot includes two mechanical and four electric locomotives including two Mercury locomotives (one is repainted) and a blue repainted Commodore Vanderbilt style. There are three tenders, one passenger car, two box cars, one stock car, one gondola, five tank cars and one caboose. They all have metal wheels with slot and tab couplers. The cars are all in good to very good condition with scratches and minor rubs. None of the locomotives were tested for operability and the blue one has a broken wind up key.
- 485** Lot includes two 567 side dumping cars, two 552 gondolas, a 1678 hopper, a 554 hopper, a 555 box car, three 553 tank cars and a New York Central wrecker car with original crank and hook. The cars range from good to very good condition with minor to moderate scratches and rubs.
- 486** Lot includes 18 cars in all including three tenders, two gondolas, five hoppers, one tank car, one box car, four cabooses, one Bogota Pullman and one Pullman Observation. The cars range in condition from good to excellent with minor to large scratches.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 487** Lot includes two girder bridges, large plastic trestle set, radio train control tower, floodlight tower, block signal, crossing signal, crossing arm, semaphore, two signs and a mint boxed No. 421 twin light Crossing Flasher. All of the other accessories are in good to excellent condition with the majority being in the middle to lower range.
- 488** Fantastic looking set in original box with all inserts. Includes 4361 locomotive, 4361 T tender, 4165 tank car, 4167 medical caboos, 4171 box car, 4172 troop barracks and unnumbered operating searchlight car and flat car with tank. The cars were displayed and are dusty but the engine has never been run nor have any of the rest of the cars. The instruction sheet is included and the box is in great shape.
- 489** Lot includes a 300 plastic steam locomotive with a metal Reading tender, 640 hopper, 631 T & P gondola and two 638 cabooses. One caboos has two small roof corner chips. They are very dusty but should clean up fairly easily. There is a small amount of rust on a couple of the trucks and there is a white film on most of the couplers which are all the link type. The locomotive has not been tested. There are also several pieces of track that are included that will need to be cleaned of dust and minor surface rust. Also included is a small No. 1 transformer.
- 490** Lot includes a 165 crane with controller with green buttons, 224E and 671 locomotives, unmarked and 2224W tenders, 2555 tank car, 2652 gondola, 3651 log car, 2454 box car, 3464 operating box car 2457 caboos and 2457 caboos. Also included is an Ives 3252 electric engine missing the cab roof. All of these items have rust, dust and dirt and will need to be serviced. The 671 locomotive is missing parts and the shell is loose. Also included is a small group of three rail 027 track.
- 491** Marklin 8017 Firestone Reifen Phoenix delivery truck in original paint with original tires. Approximately 140mm long.
- 492** The lot includes quite a few cars and trucks in different states. Some are very nice with all original paint, some have a lot of missing paint and some have small pieces of tape with writing on them so as to customize them. About half are Goodee and the rest are a mix of Midgetoy and Tootsietoy.
- 493** This lot includes toys from makers such as Lapin, Ideal, Banner and Lindberg. there are many unmarked as well. Most are in great shape but a few have some damage or mold flaws. Mainly sized for O scale train layouts.
- 494** This lot includes soft and hard plastic vehicles and four airplanes. The only marked item is a hard plastic Siku Nord 2501 Noratlas German aircraft. The cars are all in nice shape but a few are missing wheels or axles.
- 495** Lot includes mainly Matchbox vehicles but there are a few odd pieces mixed in. Conditions vary from one mint in box Mercedes trailer to loose and worn vehicles. Most are complete but a couple have missing parts. There are more regular wheels than superfast. This is a general condition lot and not subject to return.
- 496** This lot includes a mix of three or more manufacturers with most vehicles having play wear but some have no wear at all. This is a general condition lot and not subject to return.
- 497** This lot includes three vehicles that are mint in blister but have missing cards, those include Letter Getter, Funny Money and Emergency unit First Aid Truck. The emergency unit has red line wheels. The other vehicles of note are a purple Custom Firebird missing a windshield, American Tipper dump truck and two Dinky 736 hawkers Hunter Jets. This is a general condition lot and not subject to return.
- 498** Great old wood fire truck toy. Looks like it is from the 1950's or 60's. The truck is in great shape with what appear to be all original strings and rigging. There is a damaged ladder railing that could possibly be fixed but overall a great old toy with little play wear. The truck is 21 3/4" long and 10 1/4 inches tall to the top of the ladder and rigging.
- 499** Nice condition with a few small chips on the roof and base but fantastic overall. The garage door opens as well. The base measures 14" x 8 3/4".
- 500** The farm set is incomplete but in great shape overall. The string and bucket for the well are missing but otherwise, it's all here. The set did not come with any animals. The box is very rough and has writing on the side that is complete.
- 501** Nice old ferry boat that has a little wear and play use but overall very nice with no missing parts. It still has the original strings for the ends that raise and lower to allow cars to enter and exit. The boat is 18 1/4" long.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 502** This old truck is in nice shape but does have some play wear as seen in the pictures. Unsure if it is a rescue truck or a utility truck. There are three separate ladder assemblies on top so this would actually extend a long way up. The truck is 25 1/2" long and 10 7/8" tall to the upper side of the ladder rigging.
- 503** This truck is in nice shape but does have some rust and dust and dirt. There is a small part of a running board that rusted through but overall this should clean up nicely. The ladder hydraulics work and it raises up and lowers down properly. the string is missing to retract the extension ladder. There are also two loose ladders with the truck that are the same color and material of the extension ladder. The truck is 34" long to the back of the ladder.
- 504** This truck is complete and in great shape. It appears to have been played with very lightly and inside only. There is very little wear and all of the decals are complete and it is very clean overall. the box was opened from one end only but it was torn open and almost all of the flap material remains. There is some writing and some minor water stains on the box but not much to be alarmed by since it is still very solid and square. The missile is here with the tip and it still cocks and launches the tip out. A fantastic example of a neat old toy.
- 505** This old steam shovel is in nice shape and appears to be all original and complete. The decals on the side frames are still legible but one side is better than the other. The cab had a decal on the side and that one is almost all gone. The shovel is 19" long from front to back. the measurement was taken horizontally and not diagonally. The arm of the shovel is 13" long.
- 506** This tank is in great shape in its original box with the original cardboard inserts. It doesn't appear to have been played with much and is almost complete. There are a few very small scratches on the body but other than that, it is like new. The battery box is flawless and the toy has eight brass casings and eight plastic bullkets along with the original flag and beautiful detachable barrel. There is no instruction sheet since the instructions are on the back of the box but it does include the original inspection slip from Remco.
- 507** Lot includes 10 Matchbox Superfast train items on opened blister cards as well as four Kidco and two Champ of the Road dies cast trains in original boxes. There are also three of the latter sets that are loose but in nice shape.
- 508** This lot includes six train sets that are on their original blister cards. Three sets are still sealed and three sets have been opened and are on partially sealed cards. The silver set is missing the top part of the card and the trains do have some paint scratches.
- 509** This lot includes 45 pieces of Midgetoy from several different sets. Includes steam, diesel and switcher locomotives as well as freight and passenger cars. They all have scratches and missing paint but some are missing more paint than others.
- 510** Lot includes four locomotives, two box cars, two flat cars (missing 3 of 4 load pieces), side tipping car, tank car and three cabooses. They are all in great shape and don't appear to have been played with much, if at all.
- 511** The title tells it the best. This toy is absolutely mint in the box with original inserts and an original product catalog. The catalog has a detached cover but is unmarred otherwise. The box measures 15" x 8" x 3".
- 512** This lot includes two sets that are new in box as well as a large number of loose cars and track that are also in nice shape. The sets both have working mechanical locomotives. the metal parts in the locomotives have some rust but they are in great working order.
- 513** Fantastic old pull train with a rare original box. the box does have some wear and tear but the lid has fantastic graphics that beautifully depict the train inside. the train is virtually mint but one of the stickers on the locomotive has some wear. guaranteed to have never been played with. The box bottom has a lot of wear with some missing material but overall, you'll never find another one this nice.
- 514** Train is in great shape with few signs of wear and is complete with all three cars, two couplers and the original string that was never even tied onto the front of the locomotive. The box has one split corner and a tear on the face of the lid along the right hand side but has great graphics and is very clean.
- 515** The lot includes Tootsietoy and Criterion products items. The majority are Tootsietoy. these have all been played with and all have missing paint but some are nicer than others. This is a general condition lot and not available for return.

TOY TRAIN AUCTION LOT DESCRIPTIONS

APRIL 4TH / 5TH, 2014

- 516** The lot includes two early slush locomotives and several other later pieces. Also included is a small Pullman car marked France on the inside. These all have some amount of paint loss, either minimal or almost all.
- 517** This lot includes die cast, plastic, rubber and tin lithographed pieces. there are a few whistles and even a small tin friction locomotive. The Auburn rubber train is in decent shape but has a few of the coupling pieces broken off.
- 518** This lot includes a three piece trolley set that may have been made in France, a three piece articulated set that is unmarked and a single Pennsylvania friction Passenger / Budd car in original box. The friction car was made in Japan by Miyazawa.
- 519** This little set is in fantastic condition with no play wear at all. It appears to be an earlier set as it is much heavier than the later pieces. The passenger cars are 2 7/8" long.
- 520** Great lot of 17 banner hard plastic circus cars in various colors. One flat car has a missing animal but the rest are all in nice shape and complete.
- 521** Fantastic condition train set in original box with original insert. It appears to be 100% complete and never played with. The box has some crushing issues but still displays well. The box measures 18" x 9" x 3".
- 522** This set is in mint condition and has never been played with. The box is in nice shape but missing the base. The box lid does have some minor issues but still displays well.
- 523** Fantastic little set with a Route 66 game on the back. The set has nice blisters but one of them is dented in but none are split or broken. the box measures 11 3/4" x 11 3/4" x 1 1/2".
- 524** This lot includes toy trains from East Germany and possibly the USA. The large undecorated set is hand made but has no markings. The end has fallen off of one of the passenger cars but could easily be glued back on. The East Germany set is in mint unused condition in original box. The maker is Plaho and the box is in great shape. The small carded set is marked Metalloplast, the train is mint but the blister is cracked on the back end.
- 525** This lot includes locomotives, tenders and freight cars. The locomotives are 9" long and the other cars range from 6" to 7 1/4" long. They are all unmarked and may or may not be from the same manufacturer.
- 526** Fantastic lot of larger and medium sized toy trains including locomotives, tender and freight cars. The locomotives are around 6 1/4" long and the freight cars all range in size from 4" to 5". They all have minor to moderate play wear but are overall in nice shape.
- 527** Fantastic lot of smaller sized toy trains including locomotives, tenders and freight cars. The locomotives are around 6 1/4" long and the freight cars all range in size from 2 3/4" to 3 1/4". They all have minor to moderate play wear but are overall in nice shape.
- 528** This lot includes a MIB Strombecker fast Freight set in box, Thornecraft Playtime fast freight set in box as well as a loose set, FAMA Spiele Toys passenger set MIB and a Taylor Made toy train set in a rough and worn box. These sets are all from the 1940's and 50's and in great shape.
- 529** This lot includes several old puzzles but no box with them, a Parker brothers board game, a Mattel Buil-a-Train MIB from 1971, some unmarked wooden toy trains from Taiwan and some old plastic army men, mainly Marx and MPC. These toys are in various conditions, some played with, some mint in box.
- 530** Set has been played with but is in nice shape with what appears to be a lot of extra parts. The bus looks really nice and doesn't have much wear at all. the box lid has some minor skinning issues on the front as well as some light writing in pencil. All four corners are still in great shape. The set was made in japan.
- 531** Great looking set with a single bus but was likely outfitted with two. the bus does have some scratches on one side but the set looks really nice overall. The box has some tape repairs that were poorly attempted and a missing side from the lid. there are some stains on the artwork but it's probably not the most common set around either.
- 532** Both games are in nice shape and between the two, there is only one missing part which is a die cast train token. One game still has mint sealed parts. Both boxes have a lot of wear and discoloration.

TOY TRAIN AUCTION LOT DESCRIPTIONS
APRIL 4TH / 5TH, 2014

- 533** The lot includes two original boxes and several locomotives, tenders and freight cars. the cars range from nice and clean to dusty and dirty. they all appear to be in nice shape but will need a good cleaning.
- 534** This old box is in nice shape but the paper inside has torn from the top corners and the bottom left corner. It doesn't have any missing paper and should be able to be reattached to make a nice example. The parts don't look like the Hudson parts to me but there may be some to the locomotive. There are mainly, nuts, bolts and some other various parts but they don't seem to have any connection to the actual train. The hardware on the box seems to be all here and has some tarnishing but overall, it is a pretty nice box.
