1096 Gorgeous Lionel postwar O gauge dealer or service station window banner. Measures 21.25 x 6.25 inches. This is a guaranteed original, NOT a reproduction. C9-10 with very bright colors.

1097 Lionel postwar O gauge tough paper items from dealers or service station about the factory including an Annual Report for Year Ended December 31, 1956 C9-10. All Aboard at Lionel from October 1955, C9+. All Aboard at Lionel from August 1955, C9.

1098 Tough Lionel postwar O gauge dealer service station booklet from 1953. At Your Service the Answer Book on Lionel Trains. Absolutely mint C10.

1099 Very tough Lionel postwar O gauge 1946 advance catalog. This is probably the highest quality copy of this catalog that we have ever sold. It is gorgeous from spending it’s entire life in a file cabinet! C10.

1100 Lionel prewar O gauge 5344 full scale 700E Hudson and tender. Engine is nice C7. Tender looks C7-8, probable Madison shell. We usually do not test trains to run but today the lure to run a 700E was too much- the engine runs and reverses very smoothly! Included in the lot is an original prewar 700E display board, C7-8.

1102 Lionel postwar O gauge 2322 Virginian FM, very nice with no screw cracks. Very faint test run, C9. OB has all flaps, sealed on one end, square and includes the original insert.

1105 Lionel prewar O gauge City of Portland boxed set 751E. Includes 752E, 753 and 754. I spent two hours comparing this set to other sets and my conclusion is that this is probably nicest City of Portland I have ever seen, assuming it is original and I think it is. I first thought it was restored because it was so nice but with a black light and comparisons I think it is original. The vestibules I think have been restored as the yellow is not exactly the same and they have no marks on them from having been run. The bodies have extremely slight rubs on the bellypans and the observation has a circle paint rub on the roof about the size of one of the screw heads that holds the roof on. C8-9. Interior boxes are absolutely stunning C9-10 with factory sealed tape on one end of each box- I have never seen boxes even close to these as far as condition is concerned. The outer set box is square with some wear on flap joints and the taped corner is missing the original tape. Great label.

1115 Lionel postwar O gauge 3494-625 Soo operating boxcar, unrun. Boxcar looks gorgeous C9 however it does have what appears to be a small paint loss area to the upper left of one of the doors. It should be visible in the photos.
